

# ixi Button B7

## Product Overview

The ixi Alarm Button is your reliable and versatile solution for personal safety and distress situations. Designed to provide instant assistance, this device ensures peace of mind in any industry. Requires an ixi Gateway.

## Key Features

- **Panic Button:** With a simple button press, you can call for immediate assistance. Whether it's for medical emergencies, security concerns, or urgent assistance, the Panic Button is your direct line to aid.
- **Wireless:** Say goodbye to complex installations. Our device operates wirelessly, ensuring a hassle-free setup. All you need is the ixi Gateway.
- **Waterproof Design:** Built to withstand the elements, the Panic Button remains fully-functional even in wet environments. Rain or shine, indoors or outdoors, your safety is never compromised.
- **Extended Battery Life:** Our device boasts an impressive battery life of over a year, reducing the need for frequent replacements and ensuring your safety remains uninterrupted.
- **Online Monitoring:** Stay connected at all times. The Panic Button's online monitoring provides real-time updates.
- **Automatic Updates:** Benefit from the latest solution updates seamlessly. The Panic Button automatically receives software updates, ensuring your solution is always up-to-date.
